

AI-Shield API Test Report

AI-Shield API Collection

Generated: 2026-07-08T13:12:48.996Z

Summary

Requests executed	22
Test scripts run	44
Assertions total	91
Assertions passed	91
Assertions failed	0
Pass rate	100.0%
Total run duration	2263ms
Average response time	9ms

ALL TESTS PASSED

Request Results

— Phase 1 —

1. Phase 1 - Health Check

GET http://localhost:4000/api/health	200 • 54ms
[PASS] Response time is acceptable (<2000ms)	
[PASS] Status code is 200	
[PASS] Body has status ok	

— Phase 5 —

2. Phase 5 - Detect PII (email + Aadhaar)

POST http://localhost:4000/api/detect/pii	200 • 8ms
[PASS] Response time is acceptable (<2000ms)	
[PASS] Status code is 200	
[PASS] Action is MASK	
[PASS] PII detector triggered	
[PASS] Finds email and aadhaar	
[PASS] sanitizedContent is redacted	

3. Phase 5 - Detect PII (clean text)

POST http://localhost:4000/api/detect/pii

200 • 5ms

[PASS] Response time is acceptable (<2000ms)
[PASS] Status code is 200
[PASS] Action is ALLOW
[PASS] No findings
[PASS] sanitizedContent unchanged

4. Phase 5 - Detect PII (missing text - 400)

POST http://localhost:4000/api/detect/pii

400 • 5ms

[PASS] Response time is acceptable (<2000ms)
[PASS] Status code is 400
[PASS] Error message present

— Phase 6 —

5. Phase 6 - Detect CII (codename + internal URL)

POST http://localhost:4000/api/detect/cii

200 • 6ms

[PASS] Response time is acceptable (<2000ms)
[PASS] Status code is 200
[PASS] Action is MASK
[PASS] Finds project_codename and internal_url

6. Phase 6 - Detect CII (salary info keyword)

POST http://localhost:4000/api/detect/cii

200 • 6ms

[PASS] Response time is acceptable (<2000ms)
[PASS] Status code is 200
[PASS] Action is MASK
[PASS] Finds salary_info

7. Phase 6 - Detect CII (clean text)

POST http://localhost:4000/api/detect/cii

200 • 5ms

[PASS] Response time is acceptable (<2000ms)
[PASS] Status code is 200
[PASS] Action is ALLOW
[PASS] No findings

— Phase 7 —

8. Phase 7 - Detect Secret (OpenAI key - BLOCK 422)

POST http://localhost:4000/api/detect/secret

422 • 7ms

[PASS] Response time is acceptable (<2000ms)
[PASS] Status code is 422
[PASS] Action is BLOCK
[PASS] sanitizedContent is absent
[PASS] Secret value truncated, not leaked in full

9. Phase 7 - Detect Secret (clean text)

POST http://localhost:4000/api/detect/secret

200 • 7ms

[PASS] Response time is acceptable (<2000ms)
[PASS] Status code is 200
[PASS] Action is ALLOW

— Phase 8 —

10. Phase 8 - Detect Toxic (high severity - BLOCK 422)

POST http://localhost:4000/api/detect/toxic

422 • 6ms

[PASS] Response time is acceptable (<2000ms)
[PASS] Status code is 422
[PASS] Action is BLOCK
[PASS] Finds threats and harassment

11. Phase 8 - Detect Toxic (low severity - ALLOW with findings)

POST http://localhost:4000/api/detect/toxic

200 • 5ms

[PASS] Response time is acceptable (<2000ms)
[PASS] Status code is 200
[PASS] Action is ALLOW
[PASS] Triggered true with low severity finding

12. Phase 8 - Detect Toxic (clean text)

POST http://localhost:4000/api/detect/toxic

200 • 6ms

[PASS] Response time is acceptable (<2000ms)
[PASS] Status code is 200
[PASS] Action is ALLOW
[PASS] No findings

— Phase 9 —

13. Phase 9 - Detect Injection (jailbreak - BLOCK 422)

POST http://localhost:4000/api/detect/injection

422 • 5ms

[PASS] Response time is acceptable (<2000ms)
[PASS] Status code is 422
[PASS] Action is BLOCK
[PASS] Finds all three injection types

14. Phase 9 - Detect Injection (clean text)

POST http://localhost:4000/api/detect/injection

200 • 11ms

[PASS] Response time is acceptable (<2000ms)
[PASS] Status code is 200
[PASS] Action is ALLOW
[PASS] No findings

— Phase 10 —

15. Phase 10 - Detect File (valid .csv)

POST http://localhost:4000/api/detect/file

200 • 22ms

[PASS] Response time is acceptable (<2000ms)
[PASS] Status code is 200
[PASS] Action is ALLOW
[PASS] File detector says valid

16. Phase 10 - Detect File (invalid .exe - BLOCK 422)

POST http://localhost:4000/api/detect/file

422 • 8ms

[PASS] Response time is acceptable (<2000ms)
[PASS] Status code is 422
[PASS] Action is BLOCK
[PASS] Finds invalid_extension

— Phase 11 —

17. Phase 11 - Detect Token (oversized - BLOCK 422)

POST http://localhost:4000/api/detect/token

422 • 7ms

[PASS] Response time is acceptable (<2000ms)
[PASS] Status code is 422
[PASS] Action is BLOCK
[PASS] Finds token_limit_exceeded

18. Phase 11 - Detect Token (within limit)

POST http://localhost:4000/api/detect/token

200 • 6ms

[PASS] Response time is acceptable (<2000ms)
[PASS] Status code is 200
[PASS] Action is ALLOW
[PASS] Message shows within limit

— Phase 13 —

19. Phase 13 - Moderate (mixed threats - BLOCK 422)

POST http://localhost:4000/api/moderate

422 • 6ms

[PASS] Response time is acceptable (<2000ms)
[PASS] Status code is 422
[PASS] Action is BLOCK
[PASS] All 6 text detectors ran
[PASS] secret and injection triggered BLOCK
[PASS] sanitizedContent is absent when BLOCKed

20. Phase 13 - Moderate (clean text - ALLOW 200)

POST http://localhost:4000/api/moderate

200 • 5ms

[PASS] Response time is acceptable (<2000ms)
[PASS] Status code is 200
[PASS] Action is ALLOW
[PASS] All detectors ALLOW
[PASS] sanitizedContent equals originalContent

21. Phase 13 - Moderate (file only)

POST http://localhost:4000/api/moderate

200 • 13ms

[PASS] Response time is acceptable (<2000ms)
[PASS] Status code is 200
[PASS] Action is ALLOW
[PASS] Only file detector ran

22. Phase 13 - Moderate (missing text and file - 400)

POST http://localhost:4000/api/moderate

400 • 4ms

[PASS] Response time is acceptable (<2000ms)
[PASS] Status code is 400
[PASS] Error message present
